GUIDrive™

GUIDrive™ software adds a fully brandable Start Menu to a flash drive. This gives the user many reasons to use and re-use the drive:

- Easily organize drive content
- Backup and restore important data
- Use other host computer without leaving "Footprint"

The Advertiser

- Has repetitive brand exposure
- Can lock drive content with GUIDrive™
- Can load PowerPoints, web links and other presentations that will stay on the drive as long as GUIDrive™ is on the drive
- Gets a much better ROI than any blank drive

It's easy to use

- No expensive setup
- No need for special programming
- No subscription fees
