

What's Better Than E-Mail?

Voice Mail! Recite, don't write, when it comes to your e-mail!

No longer will your e-mails be just ho-hum when you use our 670EM - EMic. Add the personal touch of voice into business and personal communications.

- Easy installation of both hardware and software.
- Use for VoIP, Teleconferencing or sending voice e-mail
- Compatible on Windows and Mac platforms
- Works with Skype, MSN, Yahoo Messenger, AOL Instant Messenger, Net Meeting and many more.
- Filter's out background noise, perfect for voice recognition applications

Call Today and Add that Personal Touch E-mails Always Seem to Lack!
