Your Trusted, Independently Audited, Quality Certified, Flash Drive Source Guaranteed!

Price should not be your only concern

- What is the quality and brand name of your chip?
- What is the read/write speed of your drive?
- What kind of controller is used?
- What are the factory standards?
- What are the case materials?
- Are they RoHS compliant?

Quality drives that are tested and approved from a QCA accredited factory should be your only concern.
